

We could see an amazing last race in the cross-country championship at Nagykálló. We arrived with a four point head start on Friday and could only think about the victory. All the three day we were able to lead the race and hold the first position till the end. On Sunday we gained the Hungarian championship title what was waiting for us.

We would like to say thank you for the help and assistance of our sponsors and of course the confidence of our fans. We trust in the following success and in the next season also just the first place is good for us.

Here you can see some moments from the race at Nagykálló:
